Introducing U-Pro Melanin+™
Melanin - our skin's very own sunscreen - is a dark brown pigment found in the human body. Uvenia's powerful line of skin care solutions draws on the proven UV protection and healing properties of U-Pro Melanin+™, a proprietary formula that uses the proven power of melanin to dramatically reduce signs of sun damaged and aged skin. Combined with other natural plant sources, U-Pro Melanin+™ helps restore, maintain and protect youthful skin.
